Empower your operator... transform your operations

Despite its ultra compact size, our VELIA ES range of low level order pickers is packed with smart features that will have your operations running more efficiently, productively and reliably.

It has excellent energy efficiency. It's 14% more efficient than its closest competitor, meaning you can work as leanly as possible. Its market-leading ergonomics mean your operators will be as comfortable (and productive) as possible – even through the longest shifts.

At the heart of every VELIA ES model is hyper-intelligent software that molds the truck's behaviour to your operator and your operations for performance that is consistently easier, steadier and superior.

With drive speeds of up to 13 km/h, VELIA ES is sure to pick up the pace of your operations... whichever model you choose (standard, rising platform [P] and rising fork [F]).

Drive

- **Class-leading energy efficiency** (14% lower than nearest competitor) ensures running costs are kept to a minimum.
- **Powerful drive motor** provides excellent traction and adjustable acceleration, deceleration and brake force, for smooth, quiet, controlled operation, extended shift length and lower maintenance requirements.
- **Intelligent curve control** automatically adjusts truck speed according to steer angle for increased operator and load stability, improved productivity and reduced tyre wear.
- **Sensitive Drive System (SDS)** senses faster or slower operator control movements and adjusts truck performance accordingly, contributing to excellent driver performance.
- **Adaptive steering system** ensures truck performance matches operator needs – whether travelling in reverse or at speed – for smooth and precise operations.
- **Turbo mode** offers fast acceleration – ensuring long shuttles are completed quickly.
- **Smooth stop** prevents swaying when truck reaches a full stop – minimizing time needed between picks.

VELIA^{ES}

THE FRONT RUNNER

With a name that reflects the speed of its work, VELIA is always ahead of the pack— thanks to award-winning productivity and ergonomics.

Swift, versatile and manoeuvrable, there is a VELIA order picker to meet every need.

Maxius steering wheel

Lift height up to 220 mm

Bevelled easy-entry forks

Operator environment and controls

- **Flying start technology** shortens acceleration time for ultimate picking productivity.
- **Side steering mode** adds efficiency by allowing walk-by-side picking.
- **10-degree safety angle** keeps operators' feet safe when travelling in side-steering mode.
- **Super-grip floor** minimizes risk of slippage, for confident operations.
- **Triple-suspension floating floor** with sideways dampening and advanced cushioning, reduces microvibrations for exceptional operator comfort.
- **Perfectly-angled footrest** ensures optimal positioning of foot and ankle for drivers of all heights.
- **Easy-access platform** features low step height and chamfered edges – minimizing trip hazards for easy on/off access.
- **Next generation Maxius steering wheel** absorbs vibrations and shocks to ensure superior ergonomics.
- **Easy-reach controls** for forward and reverse travel reduce the risk of strain and fatigue.
- **Optional clear color display** alerts operators and service engineers to potential problems: avoiding damage, while enhancing safety and encouraging good maintenance.
- **Sideways standing position** and ergonomic controls ensure operators can travel in reverse, even over long distances, in comfort.

- **Contoured backrest** offers comfortable support while preventing operators from hard contact with truck.

Forks

- **Bevelled easy-entry forks** offer effortless pallet entry: reducing time and risk of pallet damage for increased efficiency.

Frame and body

- **Robust design** benefits from extensive testing – for lower service costs and enhanced safety.
- **Ultra-smooth load rest** is smooth, ensuring maximum load support – without risk of cutting or trapping edges.
- **Low center of gravity** aids stability for stable operation.

Electrical and control systems

- **Full electronic steering** with no steering wheel kickback gives precise control for optimum productivity, efficiency and safety.

Steering System

- **Small turning circle** together with responsive steering and compact chassis allows exceptional maneuverability.
- **Advanced electric steering** allows precise control at speed, with automatic speed reduction in curves and automatic drive wheel centring.

- **100-degree steering angle** ensures exceptional maneuverability – even in tight spaces.

Brakes

- **Regenerative braking** with no drive wheel jamming or brake wear gives effective control and excellent energy efficiency.
- **Anti-lock brakes** ensure excellent stopping – even on slippery surfaces.

Other features

- **Excellent lift height** – up to 220 mm – offers high ground clearance for easy handling on loading docks and ramps.

Options include

- **Full color display**
- **PIN-code access**
- **Lateral battery exchange**
- **Cold store modification (max. -35°C)**
- **Wide variety of fork dimensions**
- **Shrink-wrap holders**
- **Blue point safety light**
- **Battery compartment 625Ah**
- **Front-mounted accessory rail**
- **Picking tray [P] models**
- **Warning strobe**
- **Tilttable seat**
- **Choice of storage options**

when reliability is everything...

Like any product bearing the Mitsubishi name, our materials handling equipment benefits from the huge resources and cutting-edge technology of one of the world's largest corporations. So when we promise you **quality, reliability and value for money**, you know it's a guarantee we have the power to deliver.

Every model in our comprehensive, award-winning range of forklift trucks and warehouse equipment is built to a high specification and is designed to keep on working for you... day after day... year after year... whatever the job... whatever the conditions.

To ensure your truck stays in constant productive action, we have a network of local dealers – hand-picked for their commitment to customer care... and backed up by the Mitsubishi Forklift Trucks organisation. No matter where you are, we have a dealer close by – ready and willing to meet your needs.

That friendly local service covers everything from identifying the perfect model and configuration for your application to providing competitive, flexible finance and maintenance packages, unbeatable warranties, long and short term hire, and highly responsive field service and repairs... as well as the industry's quickest and most reliable parts supply.

Only Mitsubishi can give you this combination of global engineering excellence and outstanding local support... only Mitsubishi offers you such a quality product at such an affordable price... and only Mitsubishi places reliability as high as you do in its priorities. Contact your local dealer now and see what Mitsubishi can do for you.
