

PANTOGRAPH REACH TRUCK

3,000-4,500 LB CAPACITY

ANEWLEVELOFPERFORMANCEISWITHINYOURREACH

POWERFUL EFFICIENCY. ADVANCED TECHNOLOGY SAVES ENERGY AND TIME FOR GREATER PRODUCTIVITY.

Industry-Leading Run Times:

The ESR and EDR series of reach trucks has the ability to run up to two shifts on one battery charge, saving your business valuable operating time and money. All the major components - software, motors and controllers - are designed into one advanced system for superior energy efficiency, productivity and speed.

Dynamic Lift Speeds:

Built for productivity, this series of reach trucks achieves exceptional lift and travel speeds without compromising on control. One of the fastest in the industry, the reach truck's hydraulic system reaches a lifting speed of up to 165 feet per minute – helping your operators move more pallets in less time.

Advanced Brake Performance:

The ESR / EDR series uses advanced regenerative braking, which puts energy back into the battery when the truck slows down. This intuitive design also requires fewer parts and less maintenance. All of these features result in longer run times while maintaining consistent performance levels for even greater productivity.

Sealed Components For Greater Reliability:

These reach trucks feature sealed components for added protection in severe conditions, such as cooler or freezer applications. Sealed components offer greater reliability and require less maintenance over time, lowering your overall cost of operation today and in the future.

- Runs up to two shifts on one battery charge*
- Dynamic lift speeds up to 165 ft. / minute
- Efficient design, advanced AC technology
- Lower total cost of ownership

The ESR and EDR series delivers the efficiency and performance that your operation demands.

Exceptional Performance, Exceptional Value: Mitsubishi Forklift Trucks developed the ESR and EDR series of reach trucks to deliver superior performance – at an exceptional value. Featuring advanced AC technology, this series is designed to reach new heights quickly and efficiently for grant and deficiently for the set of the formation. greater productivity, shift after shift.

* in most applications

Advanced Technology, Advanced Performance

AC technology is integrated into the reach truck design for even greater efficiency and productivity.

Your business will benefit from:

- Low energy consumption

- Low energy consumption
 Longer run times
 Powerful acceleration
 Leading lift speeds
 Excellent energy management
 Smooth directional changes
 Less maintenance

Combined, these provide a lower cost of ownership and a better bottom line.

Lithium-Ion Availability:

- Greater power efficiency
 Run for 24 hours a day, 7 days a week with opportunity charging
 Zero battery maintenance
- No watering
- No more battery exchanges
- No gas emissions, odor or acidification
- No special charging areas or equipment needed
- Longer lasting life cycles (up to 3,000)
- 5-year warranty on batteries
- 2-year warranty on chargers

Ask your local dealer about additional performance and operator comfort options.

PRECISE CONTROL. ENHANCED DESIGN AND STABILITY KEEP OPERATORS IN CHARGE OF THEIR SHIFT.

- Superior stability at high lift heights
- Precise operation with intuitive controls
- Adjustable performance settings

These features help keep your operators productive and focused, shift after shift.

Designed For Stability From The Ground Up

The ESR / EDR series delivers industry-leading stability that is unmatched at high lift heights.

- Rigid mast design provides excellent load stability and smooth pantograph performance
- Suspended articulating drive axle helps to spread loading forces between the drive and caster wheels
- Dual-articulating load wheels provide more contact area to the floor, helping to more evenly distribute load forces at very high lift heights

The result? Greater operator confidence and less risk of product damage.

Electronic power steering for easy maneuvering

Automatic speed reduction for added security during turns

Exceptional Comfort And Control:

- Electronic power steering makes maneuvering in and out of aisles easy, while allowing the operator to experience less fatigue.
- Generous padding at the back, arm and knee locations provides added comfort and support.

Added Security:

- Automatic speed reduction reduces travel speed when the truck turns past a predetermined angle overriding operator speed commands.
- Automatic parking brake this brake automatically engages when the reach truck is initially turned on and when the operator steps off of the reach truck. For added security, the electromagnetic brake is only disengaged by operator command.

Informative Display:

Through one easy-to-read screen, operators can view key indicators, such as the current battery charge level, hour meter and performance modes.

Excellent Visibility:

Operators experience confidence with this series' enhanced design. Features such as wide channel spacing, stacked hydraulic hosing and a robust overhead guard with angled bars provide excellent visibility to the load and the surrounding area.

1) Maximum fork spacing 27.5 inches (698 mm) with 33 inch BLO.

2) Out-to-out dimension across mast outer channels.

3) 5.9 inches (150 mm) on single reach chassis with MFH over 332 inches (8430 mm).

4) 7.3 inches (186 mm) on single reach chassis with mast MFH above 332 inches (8430 mm).

5) Reduce grade clearance by 1.5% with 18.25 inch (463 mm) battery compartment length or 21.25 inch (539 mm) battery compartment length vs. 16.25 inch (412 mm) length.

6) Maximum speed attainable, after break-in period, varies with travel direction, truck weight, rolling resistance, mast height, options and battery condition.

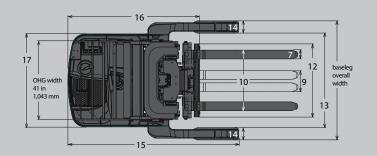

7) 21.25 inch (539 mm) battery compartment length standard on chassis with MFH over 332 inches (8430 mm).

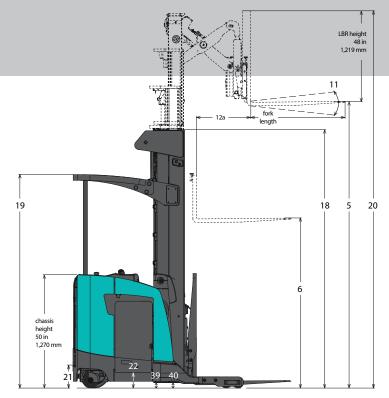

Note: Equipping this model (these models) with a power source (e.g. Lithium-ion, Hydrogen Fuel cell, etc.) that has not been previously approved by the factory is considered a modification. Per OSHA 1910.178 and ANSI/ITSDF B56.1, please consult with your factory representative prior to installing any non-OEM power source that has not been previously approved.

Add 9.1 in (230mm) for extended operator backrest

SAFETY STANDARDS

These trucks meet American National Standards Institute / Industrial Truck Standards Development Foundation, ANSI // TSDF B56.1.UL-Classified by Underwriters Laboratories, Inc., as to fire and electric shock hazard only; Type E, EE (optional), Industrial Trucks. Users should be aware of, and adhere to, applicable codes and regulations regarding operator training, use, operation and maintenance of powered industrial trucks, including:

• ANSI/ITSDF B56.1.

NFPA 505, fire safety standard for powered industrial trucks - type designations, areas of use, maintenance and operation.
 Occupational Safety and Health Administration (OSHA) regulations that may apply.
 Specifications, equipment, technicaldata, photosand illustrationsbased on information attime of printing and subject to change without notice. Some products may be shown with optional equipment.

3,000-4,500 LB CAPACITY PANTOGRAPH REACH TRUCK

Delivering Exceptional Value

More Than 296,000 Parts To Keep You Running Mitsubishi Forklift Trucks offers several parts programs, all designed to bring you top performance and convenience for your material handling needs. Contact your local dealer to put our services to work for you.

Support To Fit Your Operation

Find out why more companies are relying on Mitsubishi forklift truck dealers to keep their fleet operating at top performance. Our efficiency provides customers with a better return on investment, and qualified service technicians, diverse parts inventory and unparalleled selection of service options can help reduce your total cost of ownership.

Extensive Dealer Network

The Mitsubishi forklift truck dealer network is dedicated to finding the right forklift solution for your business. With more than 300 dealer locations, you can rely on your local dealer to provide the service you need when you need it most.

Manufactured with superior quality and exceptional value, Mitsubishi forklift trucks are supported by an extensive dealer and field support network located throughout North and South America. Don't forget to ask your local Mitsubishi forklift truck dealer about details on factory retail programs, financing plans and additional options and dealer services like planned maintenance and operator training.
